

ANI KHACHATRYAN

AK

INTERIOR DESIGNER

ABOUT

I'm Ani, I have been doing my favorite job for almost two years, I create a beautiful and comfortable environment for people. I received my education at the design department of Panos Terlemezyan College of Fine Arts, now I am studying in the 4th year of the Design Faculty of the National University of Architecture and Construction of Armenia. I chose this profession because, first of all, I want to combine beauty and comfort, and I want to create that combination in an interview around all the people who trust me. I don't work and limit myself to a specific direction of design, because I consider that each style is interesting in its own way and can inspire.
